Pre-Application Meeting Land Use: Fees, Scheduling Information and Request Form
--

For alternate formats, call 206-296-6600.

Fees:

King County Code (KCC) 27.06.010 authorizes the Department of Permitting and Environmental Review (Permitting) to charge an hourly fee for pre-application reviews. This includes an hourly fee for each staff member involved in pre-application research, pre-application meetings, and any post-meeting follow-up work. (See below for a description of the different types of land use pre-application meetings that may be requested.)

Scheduling a land use pre-application meeting, an applicant must:

1. Complete the Land Use Pre-Application Meeting Request Form on Page 3 that identifies:
 - a. Applicant's name, address and telephone number
 - b. Project description and type of permit(s) requested
 - c. Address of project and parcel number(s)
 - d. Type of pre-application meeting requested (see below)
 - e. Issues for discussion at the meeting
 - f. Number of people attending from the applicant's team
2. Provide a site plan and as much other information as possible, such as a completed environmental checklist, technical reports and any other related project documents that may assist Permitting staff in reviewing the proposal. A meeting agenda is optional. Submit enough copies for each Permitting staff person requested to attend the meeting. In most cases, at least three (3) copies of each document should be sufficient; except for preliminary plat proposals, submit at least five (5) copies. These materials must be submitted at the time the pre-application meeting request is made to Permitting.

Pre-application meeting requests may be filed in-person or mailed, provided they include all of the required submittal materials. Mail materials to:

Department of Permitting and Environmental Review
Permitting Customer Service Center
35030 SE Douglas Street, Suite 210
Snoqualmie, WA 98065-9266

Pre-application meetings will be scheduled as soon as possible following the date of the request, usually within 30 days from the date received. The applicant will be contacted by telephone regarding a date and time for the meeting. Permitting will also send out written confirmation of the meeting schedule.

Information on types of land use pre-application meetings:

Mandatory: A required meeting that is held prior to filing any Type 2 Land Use Permit (e.g., Conditional Use Permit, Zoning or Critical Areas Alteration Exception, Shoreline Permit, or Short Plat); Type 3 Land Use Permit (e.g., preliminary plat or plat alteration); or Type 4 Land Use Permit (e.g., rezone, special use permit). The primary purpose of the mandatory pre-application meeting is for Permitting staff to discuss the application process timeline, submittal requirements needed to file a complete application, and permit application fees. Fee is \$592.20 per Permitting staff person attending plus \$78.75 for the Permit Administration fee.

Land use feasibility: Also known as a “voluntary” pre-application meeting. This type of meeting is held at the applicant’s request to assist in preparing an application. This may be very preliminary in nature and is not intended to fulfill the required pre-application meeting for permit submittal. A land use feasibility meeting may also be requested by an applicant who desires a more thorough and in-depth review of the proposed project. An applicant may request that Permitting waive the required mandatory pre-application meeting, if a land use feasibility meeting has already been held. Fee is \$592.20 per Permitting staff person attending plus \$78.75 for the Permit Administration fee.

Note to applicants for minor telecommunication facilities: When a community meeting is required prior to application submittal, Permitting is requiring applicants to request a land use feasibility meeting as described above. Such request should be submitted to Permitting at least four weeks prior to the tentatively scheduled date of the community meeting. After the request is received, a Permitting planner will confirm the date of the community meeting with the applicant. A Permitting planner will attend the community meeting, and, in most cases, will conduct the land use feasibility pre-application meeting with the applicant at the conclusion of the community meeting.

Consolidated: A pre-application meeting is requested by the applicant for the purpose of consolidating and combining land use permit review and building permit review into one meeting. If an applicant requests consolidated processing, it is important to identify all aspects of the proposal to be covered at the pre-application meeting. This is particularly important when there are multiple parts to a project so that Permitting staff can understand the scope of the project and what changes may affect other reviews. Fee is \$592.20 per Permitting staff person attending plus \$78.75 for the Permit Administration fee.

Additional information regarding pre-application meetings can be obtained by contacting the Permitting Department at 206-296-6600.
